Mission

Intersecting computer science and classics to explore how language encodes thought. Building explainable systems to make automation and reasoning verifiable, transparent, and accessible.

Research Experience

2026 — Student NeSy Researcher

UCLA Team ALPHA, currently working externally

- Math autoformalization & theorem proving; LRMs, RL, MCTS, Lean4, Python

2025 — Solo-author Publication

NeurIPS 2025 Workshop on Efficient Reasoning

- “iOS as Acceleration”: Distributed training, edge compute, MLX/MPS, PyTorch, Swift, Python

2024, 2026 — Explainable AI Research Intern

UTD Applied Logic & Programming Systems Lab (ALPS)

- Logic programming and solvers; Prolog, ASP (answer set programming), blackbox ML

Engineering Experience

2026 — Telematics Software & Data Engineer

State Farm, Intern

- Architected agentic data analysis and triage tools
- Python, FastAPI, LangGraph, MCPs, AWS TypeScript, Vite, React

2025 — Enterprise Technology Infrastructure Software Engineer

State Farm, Intern

- Enhanced large-scale business-central applications
- Java, TypeScript, Vue, AWS, Azure, Docker

2022–2025 — FRC Robotics Lead Analytics Developer

FIRST Robotics, Team 2714 BBQ

- Developed data scouting software for FRC team, deployed to world championships in 2024 and 2025.
- Android Applications, Web Interfaces, Java, JavaScript

Skills

- **Programming Languages:** Python, Java, TypeScript, Swift, SQL, Clojure, Prolog, Lean4
- **Frameworks & Tools:** Git, GitHub, GitLab, LangChain, LangGraph, MCPs, FastAPI, Flask, PyTorch, TensorFlow, MLX/MPS, AWS, Azure, React, Vue, Angular, Vite, Next.js, Swift iOS apps, Java Android apps
- **AI/ML:** NeSy (neuralsymbolic) agent systems, Explainable AI (XAI), Applied algorithms & data structures, Distributed computing & parallelism

- **Team Collaboration:** Clear communication, public presentation, Reliable fast-paced delivery, Agent orchestration, SCRUM, Agile workflows

Education

2022–2026 — High School

Homeschool, Classical Education, currently rising Senior

- 4.0 GPA, 1600 SAT
- 10x AP score 5 (Calc BC, Chem, Phy 1, Stats, CSA, Precalc, Macroecon, Microecon, U.S. Hist, Eng Lang & Comp)
- Classical languages (Latin), Greek & Roman philosophy, debate (formal reasoning, rhetoric & speech)

2025–2026 — Dual Credit

Collin College

- Discrete Math (grade A), Linear Algebra (grade A)

2023–2025 — Online Courses

Coursera

- “Data Structures & Algorithms Specialization” at UCSD
- “Build a Modern Computer from First Principles” at HUJI

Honors & Awards

2024–2026 — National Latin Exam

American Classical League & NJCL

- Intermediate Latin Gold Summa Cum Laude (2026)
- Beginning Latin Gold Summa Cum Laude (2025)
- Introduction to Latin Magna Cum Laude (2024)

2026 — Coolidge Cup Qualifier

Calvin Coolidge Presidential Foundation

- Qualified to international prestigious Coolidge Cup tournament for 1v1 Debate

2023–2025 — NCFCA Team Policy Debate

National Christian Forensics & Communications Association

- Multiple Team Policy Speaker distinctions and team placings in elimination rounds
- Notably 2nd speaker out of 110 competitors at National Online tournament (24-25)

2026 — ISEF State Science Fair

Texas Science & Engineering Fair (TXSEF)

- 2nd in Software Design / Systems Software, awarded full scholarship to GSTCA

2026 — ISEF Regional Science Fair

Dallas Regional Science & Engineering Fair (DRSEF)

- 1st in Software Design / Systems Software, advancing to TXSEF

2023–2025 — USACO Gold Division

USA Computing Olympiad

- Gold Division distinction, top 5-10% internationally
